Clybiau Plant Cymru KIDS' CLUBS

The value of activities children and young people participate in **out of school childcare clubs** could be **recognised, rewarded and celebrated** by **Children & Young People's University Cymru.** The Children's University in Wales awards credits to children and young people who attend activities outside normal school hours.

Clybiau Plant Cymru Kids' Clubs has worked with **Children & Young People's University Cymru** at a national level to register its **5 zone packs: Nature Zone, Culture Zone; Play Zone; Youth Zone; Marketing Zone** (available free on the members area of our website). Children and young people gain one credit for each hour of participation. Credit values have been developed for guidance for the zone pack activities for clubs wishing to join the scheme.

Registers of attendance are returned to the local Children's University Co-ordinator and credits are banked for each child/young person. Credits cumulate towards a University recognised award and award cerononies take place.

All activities must be associated with and delivered through a recognised centre such as a school, library, sport centre, community centre.

Clubs can also propose their own 'modules' for other activities.

For participating children and young people it will:

- add value to what they would already be doing;
- keep a record of their involvement in out of school activities;
- recognise and celebrate their acheivements.

For participating clubs and playworkers it will:

- give external credit for the work they are already doing;
- provide information on which activities children are involved with
- foster a sense of community spirit through partnerships with other groups and organisations.
