

# Tax Free Childcare

**Did you know you may be able to get up to £2,000 for each of your children a year to contribute towards the cost of attending our Club?**

You need to set up an online account through the Government Tax Free Childcare Site.

N.B before applying for Tax Free Childcare first check if you are eligible to get help with your costs through Universal Credit as you could be entitled to more through this route.

*You can complete a calculation at <https://www.gov.uk/childcare-calculator> to see which would benefit you the most.*

01

To set up the Government Gateway account you will need your NI number and details of one or more of the following - your UK Passport, tax credits, P60 or a recent payslip.

02

Once your account is set up you can start paying in. This can be done by either standing order each month or through a debit card payment as and when you want to add to the account. The government will top up your account the same day.

03

You can pay your provider directly from this childcare account as soon as your account says "available funds". If you pay funding in before 2.30pm, the payment will reach us the same day. After this time or at weekends and bank holidays the money reaches us on the next working day.

In some cases, it can take up to 3 working days so we ask that you plan your payments in plenty of time to ensure it reaches us when the payment is due

04

You need to look at your childcare bill and multiply it by 0.80. This will give you 80% of the bill and this is how much you need to pay into the account.

The government will top up the 20% and this will show on your account as "top up".
